

5 WHAT IS CLAIMED IS:

1. A liquid laundry detergent composition contained within the water-soluble body for release upon the dissolution of the water-soluble body, the composition comprising:
 - 10 -- at least two layers, said at least two layers comprising in total:
 - i. from about 5 to about 90% of a detergent surfactant; by weight of the composition;
 - ii. from about 5 to about 50% of a colored inorganic electrolyte, by weight of the composition; and
 - 15 iii. from about 1 to about 85% of water, by weight of the composition.
2. The composition of claim 1, wherein the composition further comprises a hydrotrope.
- 20 3. The composition of claim 1, wherein the composition further comprises a dye.
4. The composition of claim 1, wherein the detergent surfactant in the composition comprises a mixture of an anionic and a nonionic surfactant.
- 25 5. The composition of claim 4, wherein the ratio of the anionic surfactant to the nonionic surfactant is from about 10:1 to about 1:10.
6. The composition of claim 1, wherein the volume ratio of the first layer to the second layer is from about 10:90 to about 90:10.
- 30 7. The composition of claim 1, wherein the composition is packaged within a transparent container.

- 5 8. The composition of claim 1, wherein the composition is transparent.
9. The composition of claim 1, further comprising a third layer.
- 10 10. The composition of claim 1, wherein the third layer is a layer of capsules or
emulsion.
11. A liquid laundry detergent composition comprising:
 -- at least two layers, said at least two layers comprising in total:
 i. from about 5 to about 90% of a detergent surfactant; by
15 weight of the composition;
 ii. from about 1 to about 50% of total electrolyte, by weight
 of the composition, the electrolyte comprising a colored
 inorganic electrolyte and another electrolyte selected from
20 the group consisting of an additional inorganic electrolyte,
 organic electrolyte, and mixtures thereof, and
 iii. from about 1 to about 70% of water, by weight of the
 composition.
12. The composition of claim 11, wherein the composition further comprises a
25 hydrotrope.
13. The composition of claim 11, wherein the composition is transparent.
14. The composition of claim 11, wherein the composition is packaged within a
30 transparent container.
15. The composition of claim 11, wherein the electrolyte comprises from about 0.001
to about 10% of the colored inorganic electrolyte.
